Experience Quanta ™ in telephone sessions in the comfort of your own environment

Quanta: The Divine Light Structure ™ is a unique transmission of light received in personal telephone sessions and has many different applications. All that we are and everything that we experience in this life has some foundation of natural order and organization that is reflected in systems and structures from the subtlest levels of our field down into our physical bodies. Around us and within us various systems and structures nourish and support us and allow us to function on all multidimensional levels. Even though we are unaware of much of what goes on within and around us, these systems and structures are critical to our existence, well being, and flexibility of functioning. Disease and symptoms on all levels of our being appear when the order is compromised in any system, causing the underlying structures to be altered over time. On the level of healing Quanta ™ can replace structures of chaos responsible for every level and range of symptoms. As Quanta: The Divine Light Structure ™ replaces the chaotic structures that organized our symptoms with structures of light we stabilize within us a new paradigm that is symptom- free. Additionally, transformational benefits of Quanta ™ include releasing old limiting thoughts, beliefs and emotions that bind us to a life of lesser fulfillment.

As chaotic structures are cleared with Quanta: The Divine Light Structure's ™ help, Quanta ™ assists us in becoming less bound by our concretized third dimensional world. This is when another feature of Quanta ™ begins to emerge. Quanta: The Divine Light Structure ™ has the ability to organize our multidimensional field to create larger cohesive structures of light for us to expand in to. As this happens we receive gifts and blessings from the higher dimensions that are practical to both our daily life, and our spiritual unfolding allowing us to experience higher states of consciousness. As we stabilize these states and expand into our greater multidimensionality with the help of Quanta ™ through personal sessions, we begin to move into qualitatively different phases of being and enlightenment. Through Quanta ™ sessions we also become inter-dimensional- meaning that we begin to awaken to this ultra expansive spaciousness, and in this state develop an awareness of higher frequency dimensions while learning how to navigate in this vast sea of consciousness.

Quanta's ™ ultimate mission is to create a structure of light for us through activating a constellation of inter-dimensional points of light unique to each person's multidimensional field. In this way Quanta ™ organizes us for the pinnacle of enlightenment known as Embodied Ascension. When this light structure of Quanta ™, which is composed of 47-57 individually unique points, is fully activated within through Quanta ™ sessions, Embodied Ascension occurs. This is the greatest gift of Quanta: The Divine Light Structure ™ - anchoring us in our fullest expression of Divinity in the present moment so that we may live in a fully developed, vastly expansive on-going state of the Oneness of the All in the richness and joy of our everyday lives.

I look forward to the honor, privilege, and delight of being of service as this work speaks to you. I wish you all the very best.
